

DRYSUITS & DRY BAGS FOR AMPHIBIOUS OPS

TYPHOON 1947

TYPHOON

V3

DRYSUITS | DRY BAGS | ACCESSORIES
FOR MILITARY OPERATIONS

FIRST CHOICE FOR SPECIALIST MILITARY UNITS AROUND THE WORLD

Research and development never ceases as Typhoon continue to work with new fabrics, textiles and components, integrating them into new production methods.

Typhoon currently supplies a unique range of military products to operators within all areas of amphibious operations around the world. This includes elite SOF and Police units. By utilising our expertise we can offer a wide range of off the shelf and bespoke products.

Within the portfolio a large catalogue of Nato Stock products already exists, however the design team is on hand to tailor equipment to meet individual requirements. This could simply be moving the position of a pocket on a drysuit, modifying a product to include anti magnetic properties or designing a bespoke dry bag from the ground up, which could be unique to an individual or unit.

Our extensive range is manufactured to meet the requirements of ISO 9001 criteria.

BEYOND

Typhoon International are exclusive distributors of FirstSpear and Beyond products for Her Majesty's Ministry of Defence.

BESPOKE DRYSUITS AND BAGS

Typhoon fully understand that off the shelf suits may not meet your requirements. Our highly experienced design team can discuss your unique requirements in complete confidence.

Our team can advise not only on the design of the suit but can also offer advice on varied pocket configurations and alternative fabrics that can be mixed for the terrain and environments that your people will be working in. The suit pictured shows differing configurations of pockets and other features.

- 1 Latex or Neoprene seals
- 2 Numerous pocket options
- 3 Relief zip options
- 4 Reinforced kevlar/PU seat, elbows & knees
- 5 Latex, fabric or neoprene socks. Fixed thermic boots & tactical boots also available
