YOUR  
POTENTIAL

# PROFESSIONAL GEAR FOR ALL DOGS.

## PROFESSIONAL GEAR FOR ALL WORKING DOGS

Our goal is to release your dog's potential through robust, reliable, and ergonomically designed gear. Whether that dog is small or big. All dogs are equal and deserve nothing but the best.

## TESTED TO THE LIMIT

You need to rely on your gear whether you are skydiving or you are on a everyday patrol with your dog. All the equipment we make is developed in close cooperation with our good customers in the police, military and rescue services.

HARNESS

TECHNICAL  
SPECIFICATIONS

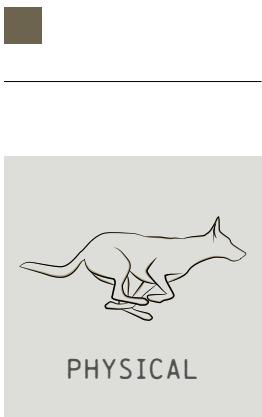

Freemotion harness is developed for physical exercises with a higher pulling point, such as running, biking and skiing. It is developed to give your dog free movement for the shoulders and minimal breath constraint. The harness is made with a durable material, and is adjustable. Available in sizes from 6-10.

- + CLOSED-CELL FOAM THAT DOES NOT ABSORB WATER
- + 500D NYLON
- + NYLON WEBBING

SIZE	6	7	8	9	10
Neck circumference	40-44 cm	44-48 cm	48-52 cm	52-56 cm	56-64 cm

# NANSEN STICK HARNES

### TECHNICAL SPECIFICATIONS

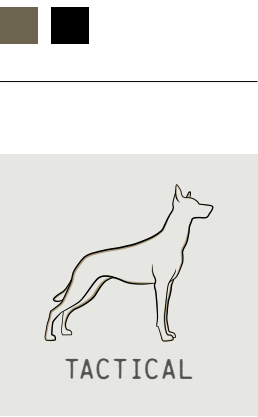

- + CLOSED-CELL FOAM THAT DOES NOT ABSORB WATER
- + RIPSTOP NYLON
- + NYLON WEBBING
- + ALUMINUM STICK
- + HYPALON REINFORCEMENT
- + 220 D HEAVY-DUTY NYLON

Nansen stick harness is developed for activities with a lower pulling point. The harness is developed to put less load on the dog's back and hips. The elastic part on the back of the dog makes the stick stay in place. This harness is perfect for physical dog training such as pulling tires or chains to build strength.

SIZE	4	5	6	7	8	9	10

# LINE HARNES

### TECHNICAL SPECIFICATIONS

- + HYPALON REINFORCEMENT
- + NYLON WEBBING
- + ANTI PULL
- + DURAFLEX BUCKLES

Line harness is a lightweight harness developed for patrolling and tracking. The harness comes in several versions, adapted to your operational needs. One of the options is that the dog has a handle on the back that provides you the possibility to lift the dog over obstacles. It can also be used to easily get hold of the dog during a tactical or training situation. Several attachment points make this harness versatile. In addition to the leash attachment point on the back, there is one under the stomach for a tracking line. This way the dog can move freely and sniff without having the line get tangled around the legs. Patrol harness also comes with several different buckles, ranging from lightweight buckles to strong heavy duty cobra buckles.

SIZE	4	5	6	7	8	9
Neck circumference	33-36 cm	36-40 cm	40-45 cm	45-50 cm	50-55 cm	55-63 cm
Chest circumference	41-68 cm	52-78 cm	56-87 cm	61-92 cm	67-102 cm	70-112 cm

## LEASHES

## STRONG PATROL LEASH

## TECHNICAL SPECIFICATIONS

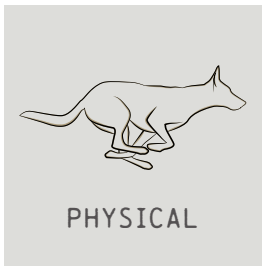

- + NYLON
- + 3M REFLECTIVE MATERIAL
- + TWIST-LOCK CARABINER

Strong patrol leash is available in a variety of lengths and therefore can be used for many purposes. The shortest leash is excellent for practicing everyday obedience training. The longest version gives your dog more freedom to explore the surroundings on patrolling. If you want a bit of both we also have a 2 m version, which gives you both the control and the freedom for your dog. Strong leash is canal sewn, making it very comfortable to hold.

# BUNGEE

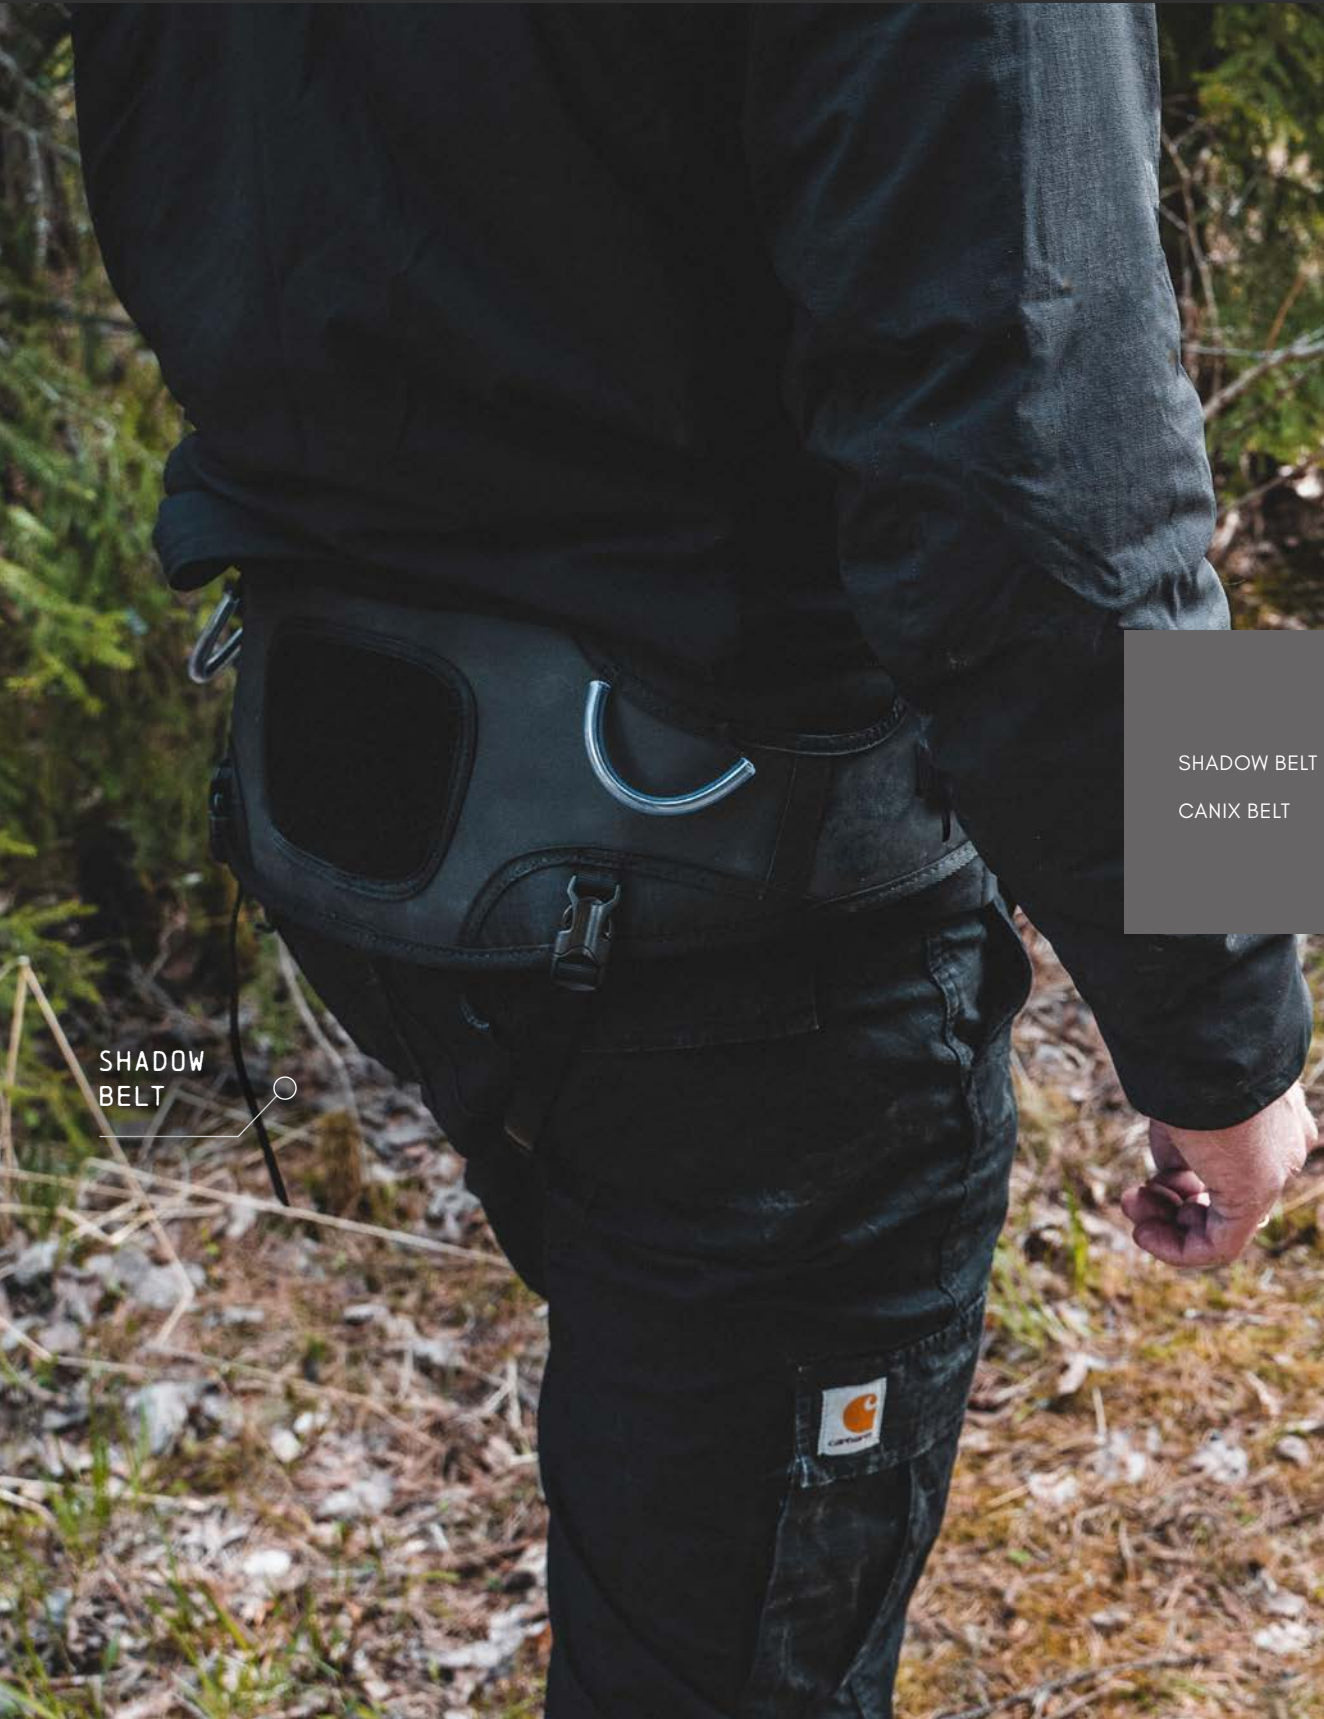

## TECHNICAL SPECIFICATIONS

- + DURABLE POLYESTER WEBBING
- + ELASTIC PART

Bungee leash is a robust leash which is elastic on the whole length, developed to give both you and your dog a smooth experience on your training session. The Bungee leash is perfect for activities such as running, skiing, and bicycling with your dog.

# SHADOW BELT

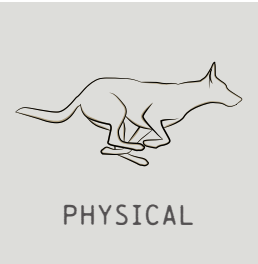

## TECHNICAL SPECIFICATIONS

- + MOLDED WATER-RESISTANT FOAM
- + HYPALON REINFORCEMENTS
- + NYLON WEBBING
- + ALUMINUM BUCKLES
- + CARABINER WITH LOCK
- + REMOVABLE LEG STRAPS
- + 2X EXTRA ATTACHMENT POINTS

Shadow Belt is developed for those who like to operate with hands free or do physical exercise with dog. Belt is molded to have an ergonomic form and has a cell foam soul that makes it water-resistant. On the side there are pulka-attachments. The belt has small loops to carry light training equipment or operational equipment that is less than 0,5 kg. Shadow Belt comes with a screw-lock carabiner. The belt is available in three sizes and can be adjusted around the waist and legs. The legstraps can be removed.

Circumference around hips	85-95 cm	95-140 cm

# CANIX BELT

## TECHNICAL SPECIFICATIONS

- + BREATHABLE MESH
- + POCKET IN SPANDEX
- + HYPALON REINFORCEMENTS
- + NYLON WEBBING
- + SCREW-LOCK CARABINER
- + ALUMINUM BUCKLES

Canix Belt is developed for running with a dog. The belt is developed together with some of the best canicross athletes, and promotes a good running technique. The belt is light, durable and made with a breathable material. The Canix Belt comes with a locking carabiner. The carabiner moves on a loop in front to follow the dog's movement. The belt is available in two sizes and is adjustable. There is a pocket on the back big enough to fit a smartphone (M: 8,5x15 cm / S: 8,5x13 cm).

SIZE	S	M
Circumference around hips	68-100 cm	81-120 cm

## DEFENSE BLEST JACKET

### TECHNICAL SPECIFICATIONS

- + PRIMALOFT
- + RIP-STOP SHELL
- + SMOOTH RIP-STOP LINING
- + HOOK-AND-LOOP FASTENERS
- + WATERPROOF: 8000 MILLIMETERS

Defense Blest Jacket is perfect for activity and rest. The jacket is made with primaloft which makes it warm, but light. It is also water- and windproof. The jacket can easily be taken on and off with hook and-loop fasteners. An optional cover can be mounted to protect male genitals. Defense blest jacket comes in camo and ranger green color and can be turned so that it turns white. Sizes range from S to XL.

# PROTECTOR SNOW

## TECHNICAL SPECIFICATIONS

- + ELASTIC MATERIAL
- + HOOK-AND-LOOP FASTENER
- + ZIPPER
- + FLEECE (MALE DOG MODEL)
- + DURABLE SEAMS AROUND OPENINGS

Protector Snow is developed to keep your dog’s fur from packing up with snow as well as camouflage the dog during winter conditions. Elastic material gives your dog free movement. Protector snow comes in two variants, female and male. The suit has openings so that the dog can excrete. These openings can be adjusted. The male dog edition comes with inner fleece lining to protect the testicles.
